Administrators Association

ESSAA PAC

ESSAA gives a voice to school leaders. We work with our members to develop legislative and NYSED advocacy platforms for what you, and the schools you lead, need to succeed. We work to influence emerging laws and regulations, and ensure that our members have timely and accurate information on issues and decisions that impact school policy and funding. We also provide guidance and support to our members as these are enacted. Our regional approach enables a constant flow of feedback and information to and from our membership to inform interactions with the State Education Department and our lobbying efforts in Albany. Ongoing communication through regular updates provides opportunity for member comment and input.

Your donation to our PAC fund allows us to continue these efforts and to advocate for the important policies that protect and advance the interests of our members.
