November 1, 2023

Dear Superintendent,

The U.S. Census Bureau annually requests states to verify grade range and geographic boundary information through the School District Review Program (SDRP). The National Center for Education Statistics (NCES) sponsors the SDRP, which enables the Census Bureau to create poverty and population estimates by school district geography. These estimates are used in the calculation of each state's allocation under Title 1, Part A of the Elementary and Secondary Education Act (ESEA) as amended (Public Law 114-95).

Correcting any inaccuracies may have financial implications for your school district. The Census requests information on grade ranges and boundaries as they will exist on January 1, 2024. We ask that you review the below information and report any inaccuracies to SDRP@nysed.gov by Friday, December 8, 2023:

- Census Bureau school district boundaries;
- School district names, spelling, abbreviations, ex. St., Saint;
- Federal School District Local Education Agency numbers;
- Grade ranges for allocating children if two school districts occupy the same area;
- Counties in which school districts are located; and
- Relationships where school districts are coextensive with other legal areas such as counties, cities, towns and townships.

If there are no changes, then no further action is required.

School district boundaries: TIGERweb is a tool that you may use to review current Census Bureau school district boundaries. You can access TIGERweb at <https://tigerweb.geo.census.gov/tigerweb>. If you need to submit a boundary correction, please email an annotated TIGERweb map to sdrp@nysed.gov. Do not submit a marked-up map from any other source than TIGERweb. Using the TIGERweb application, we recommend the following:

- ✓ Zooming in to the street level with both 'Labels' and 'Transportation (Roads and Railroads)' selected in the list on the left of the screen;
- ✓ Turning on satellite imagery using the button in the upper right corner of the screen (the button looks like a map of the USA with the word 'Landmass' below it and will need to be clicked twice to display Satellite imagery); and
- ✓ Taking a screenshot once the proposed changes have been annotated.

School district information: Please review the attached spreadsheets to ensure district information is accurate. Grade ranges should reflect the lowest and highest grade for which the district has financial responsibility (regardless of whether the district provides those services). So, for example, if a district does not provide services in its schools but is financially responsible for paying community-based providers to serve pre-kindergarten pupils, then the district would report 'PK' in this cell of the spreadsheet.

Thank you in advance for participating in this important verification process. Further details on this program may be found at the United States Census Bureau website at <https://www.census.gov/programs-surveys/sdrp.html>.

Sincerely,

David Elliott
Coordinator
Office of Educational Management Services
